"Kumbayama Grand Prix" Agility Jackpot

Class No. 51

A Sherwoodstock Original: The Kumbayama "Grand Prix" styled agility jackpot! The llama and handler team with the lowest score in the best time wins. Instead of each obstacle being judged on a scale of 1 to 10, faults will be awarded for errors.

Refusal

4 faults

Two refusals at the same obstacle warrants elimination.

Incomplete obstacle

3 faults

You may make multiple attempts to complete the obstacle as long as one foot of the llama enters the obstacle each time. 3 faults for incomplete. 0 faults if you complete the obstacle regardless of the number of attempts.

Obstacle disruption

2 faults

i.e. Rail down; parts moved; etc. anything requiring the obstacle to be reset

Exceeding time allotted

1 fault per 2 seconds

A base time for completion will be established day of show.

You must complete the course within that time frame to earn 0 time faults.

A clean round will be awarded 0 faults. If there are multiple clean rounds there will be a run-off. The best time wins. Fault scale will still apply. If there are no clean rounds there will be no run-off and the lowest score with the best time will be declared the winner.
